passion for animals.

Spitz VetCare is your competent partner for endoscopic technologies. We provide all for your minimal invasive approach, from laparoscopy, arthroscopy to diagnostics.

From needle holders to high-resolution 4K UHD cameras or customized special products, we have an exclusive product portfolio for your needs.

Dr. med vet Markus Spies has been in veterinary medicine for 20 years, as a clinician and in industry. SPITZ VetCare was founded in 2021 as a subsidiary of the Tuttlingen-based family company RZ Medizintechnik GmbH.

And that is what Spitz VetCare is all about: The clinical experience and passion of veterinarians combined with experience in developing and manufacturing medical technology make Spitz VetCare a strong partner.

For us, veterinary medicine is not just a subsidiary of human medicine, but an important part of modern medical technology.

diagnostic endoscopy.

- Wide range of flexible, semiflexible and rigid instruments
- Dedicated equipment for the Rhinoscopy, Laryngoscopy, Otoscopy or Vaginoscopy and Cystoscopy
- Different scopes and sheaths for all kind of indications
- For diagnosis and treatment in all natural orifices

Universal and flexible "All in One Solution" for diagnostics and endoscopic therapy. The complete system can be easily transported, intuitively set up and used. The ultra-high resolution monitor and FullHD camera produce a high-quality image and the 60W equivalent light source provides good illumination.

- 4K HD 17,3" monitor
- LED Light Source, 60W equivalent
- Disinfectable FullHD camera for flexible and rigid optics with zoom adapter
- Endoscopic platform with video and image recorder and network connection

300-490-001

ALL IN ONE FULL HD SYSTEM

consisting of:

- A Camera head, Full HD
- B TV-Adapter, f1.4 to f3.5
- C Light guide cable with adapter
- D Laptop with software, LED Light source
- E Suitcase

Mobile endoscopy becomes possible with this High Definition camera that allows endoscopic examination with all required parts in one complete set. Integrated illumination and a high-performance camera head, powered by an external Desktop-Computer or Laptop via USB 3.0 makes examination and clinical surgery possible.

- Full HD (1920 x 1080) recording function (images / video)
- Powered by USB connection (USB 3.0 required)
- Long-life LED illumination
- Programmable camera head with adjustable brightness
- Easy software installation and interface (Software incl. patient management/storage)
- Lightweight, ready-to use design

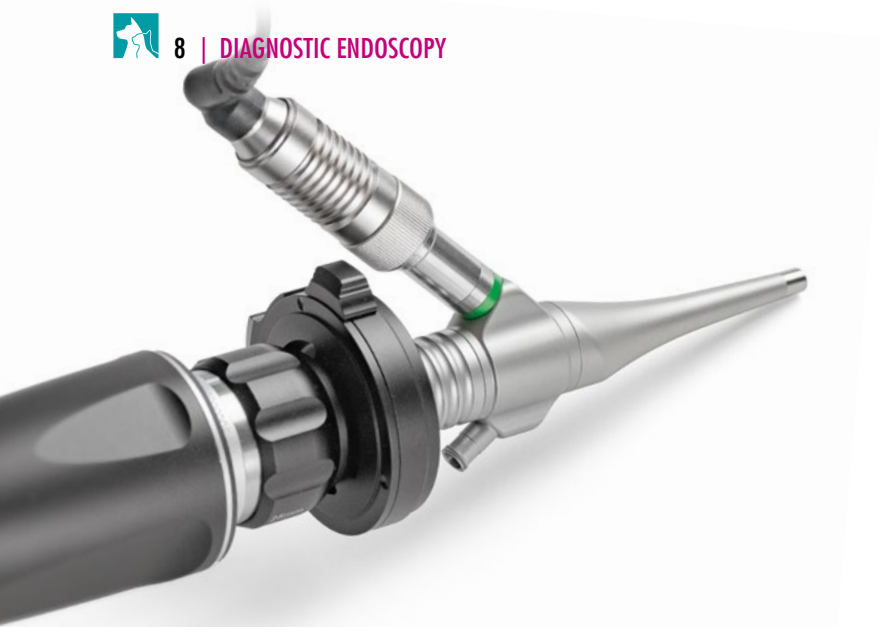

300-001-480

FULL HD CAMERA SET

consisting of:

- A Camera head
- B Endoscope coupler
- C Light source
- D Suitcase
- E Software

ArthVIEW®

- Full HD scopes for your image
- Color code indicates direction of view
- High durable sapphire glass tip
- Optimized glass fiber arrangements for uniform brightness
- Fully autoclavable

ArthFLOW®

- The perfect match for your scopes
- 360° rotatable stopcocks
- Color coded
- Easy to clean and maintain
- Available in regular and high flow

Arthroscopy Set according to Dr. Scharvogel

Diplomate ECVS

225-999-001

Arthroscopy Set according

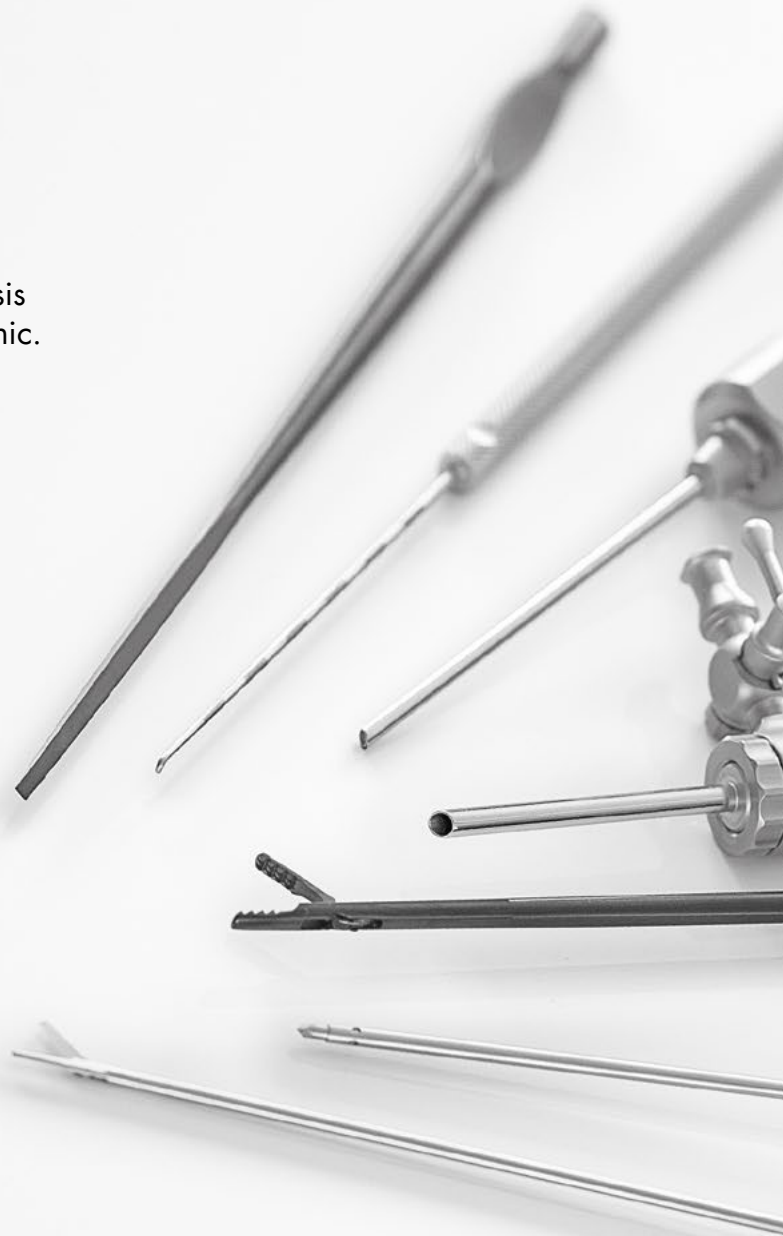

Dr. Stefan Scharvogel

Diplomate ECVS (European Specialist in Small Animal Surgery)

Specialist for surgery, specialist for small animals

Arthroscopy has become the standard for diagnosis and treatment of joint diseases in small animal clinic. Modern visualization techniques and dedicated instruments help to visualize anatomical structures and treat pathologies minimally invasive with an accelerating recovery.

This Arthroscopy Set has been configured by Dr. Stefan Scharvogel and is based on his experience and knowledge of many years as a veterinary surgeon.

Blax Instruments

The next step to perfection.
The Blax Instruments will give you a new experience of cutting sharpness and reliability.

- Higher corrosion resistance
- Sharpness retains longer
- Less light reflection
- High wear resistance

ArthVANCE®

Arthroscopic Instruments

Punches, Scissors and Grasping Forceps

The Arthvance Instruments provide for all joints and different anatomies the right pattern

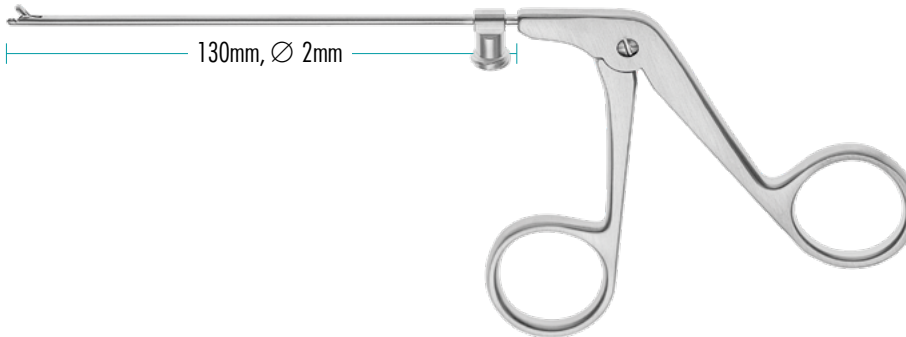

- Low profile and small pinless jaw design allows access even to the smallest joint space
- Easy to clean with Luer-Lock connection
- Direct force transmission from your fingertip
- 100% Made in Germany

ArthVANCE® Mini Arthroscopic Instruments

Rongeur, straight jaw, straight shaft, ring handle

95mm working length	225-810-930
125mm working length	225-800-920
220mm working length	225-830-920

ArthVANCE® Arthroscopic Punches

Small bite (Scale 1:1)

Medium bite (Scale 1:1)

Duckling Basket Punch
Advanced Duckling low profile jaw, flat upper jaw moves completely into the lower jaw.

Duckling Elevator Basket Punch
With flat shovel for easy access.

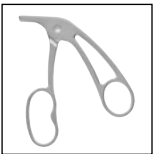

Duckling Basket Punch, 125mm working length, straight shaft, ring handle

small	225-800-401
medium	225-800-402

Ring handle

medium	225-800-420
--------	-------------

Pro handle

medium	225-700-402
--------	-------------

Bite size (Scale 1:1)

Slimline Basket Punch
The narrow shaft and compact jaw design allows access and use in tight spaces such as the posterior aspect of the knee.

Ring handle, straight shaft, straight jaw, 125mm working length

small	225-800-002
-------	-------------

45° angled jaw

left	225-800-003
right	225-800-004

Bite size (Scale 1:1)

Backbiter
The Backbiter Basket Punch enables access to the anterior horn of the meniscus.

Ring handle, straight shaft, 125mm working length

left cutting	225-800-707
--------------	-------------

 Bite size (Scale 1:1)

Oval Punch

Offers the lowest profile and the largest bite size for end-on as well as lateral cutting. The allrounder punch.

**Ring handle, straight shaft,
125mm working length**

straight jaw 225-800-202

Mini Oval Punch, 95mm working length

straight jaw 225-810-202

left jaws 225-810-203

right jaws 225-810-204

Blunt Nose

Enables a flush contouring of the meniscus

**Ring handle, straight shaft,
85mm working length**

straight jaw 225-810-302

 Bite size (Scale 1:1)

Basket Punch SCOOP

Basket Punches are the traditional style instruments with a classical punch shape and the parrot peak upper jaw for a safe capture of tissue.

**Ring handle, straight shaft,
125mm working length**

1.0mm, straight jaw 225-800-802

1.3mm, angled jaw 225-800-805

1.3mm, downbiter jaw 225-800-806

Side Cutter

Left and Right Side Cutter punches allow easy access to anterior meniscal tears. The special designed Pencil Handle makes all Side Cutters „Rotator“ punches.

 Bite size (Scale 1:1)

**Pencil Handle, straight shaft,
85mm working length**

left side cutting 225-810-955

**Pencil Handle, straight shaft,
85mm working length**

right side cutting 225-810-957

ArthVANCE® Grasping Forceps

Shark Grasper
With blunt 1x2 teeth and serrated inner jaws.

Alligator Grasper
Short jaw with multiple serrations

Shark Grasping Forceps, Pro Handle,
125mm working length, straight shaft
straight jaw 225-700-820

Alligator Grasping Forceps, Pro Handle,
125mm working length, straight shaft
2.7mm straight jaw 225-700-825

Slide Lock Handle, 125mm working length
straight jaw 225-800-820

Slide Lock Handle, 125mm working length
2.7mm straight jaw 225-800-825

Mini Shark, 85mm working length
straight jaw 225-810-820

Mini Alligator, 85mm working length
straight jaw 225-810-825

Cupped Grasper
Cupped jaw with atraumatic serrations.

Cupped Grasper, straight shaft,
125mm working length, 3.3mm straight jaw
Pro Handle 225-700-833

125mm working length, 2.7mm straight jaw
Slide Lock Handle 225-800-832

ArthVANCE® Scissors

Hook Scissors

Hook Scissors, straight jaw, 3.5mm, Ring Handle, 125mm working length

straight shaft 225-800-472

15° left curved shaft 225-800-477

15° right curved shaft 225-800-479

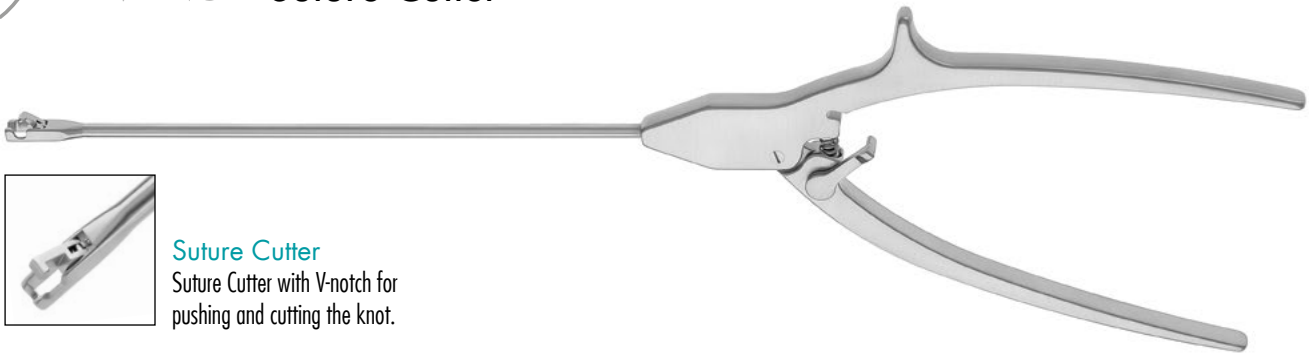

Mini Hook Scissors, 2.7mm straight jaw, 85mm working length

straight shaft 225-810-472

ArthVANCE® Suture Cutter

Suture Cutter

Suture Cutter with V-notch for pushing and cutting the knot.

Suture Cutter, v-notch, left opened, axial handle

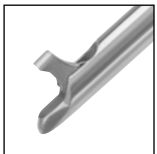

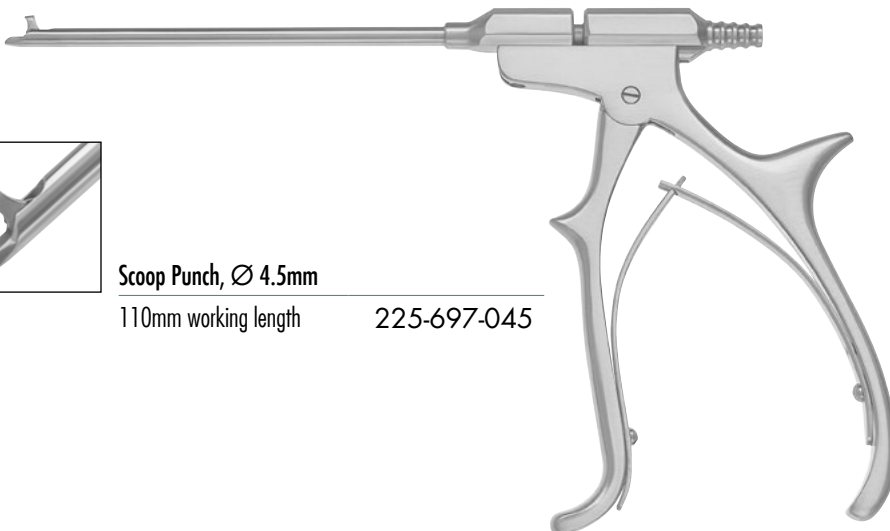

155mm working length 225-820-100

ArthVANCE® Suction Punches

Suction Punches

Suction Punches feature an universal tube connector for simultaneous punching and evacuation of tissue, cartilage or bone parts.

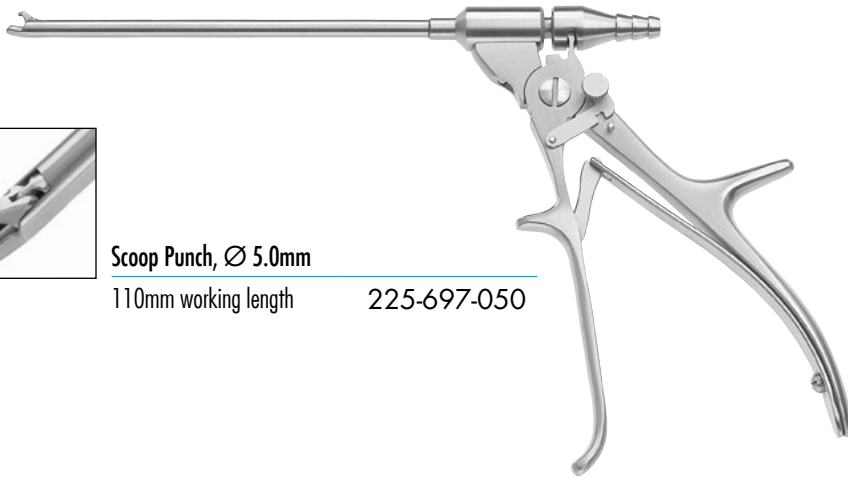

Scoop Punch, Ø 4.5mm

110mm working length 225-697-045

Scoop Punch, \varnothing 5.0mm
110mm working length 225-697-050

Retrograde Suction Punch, \varnothing 2.7mm,
with suction tube connector,
110mm working length
360° rotatable 225-699-027

Endoscope Exchange Program

- Collect any kind of broken, damaged or used scope of any company from hospitals, private clinics, etc. and choose one of the listed Endoscopes for an excellent price
- Send us ANY TYPE of scope and choose a new SPiTZ scope
- Receive a brand new SPiTZ Endoscope with full warranty
- All components are new, no „Economy Class“ product, no recycled or reprocessed parts inside
- Fixed prices for a transparent budget

laparoscopy.

SPITZ TELESCOPES

- 3-step light post adapters to connect the most common light cables directly to the endoscope
- Sapphire glasses ensure highest stability against damages on the lens system
- Optimised glass fibre arrangements ensure a uniform image brightness of highest quality
- Full HD and 4K high definition pictures with increased detail-resolution through newest CAD - designed rod - lens systems
- Fully autoclavable at 134°C and 2.3bar

4K LAPAROSCOPES

State-of-the-art Laparoscopes to achieve excellent image quality and finest details in Ultra High Definition.

Fan Retractors & Band Passer

- Flush Port System
- Vertical adjustment of max. 50°

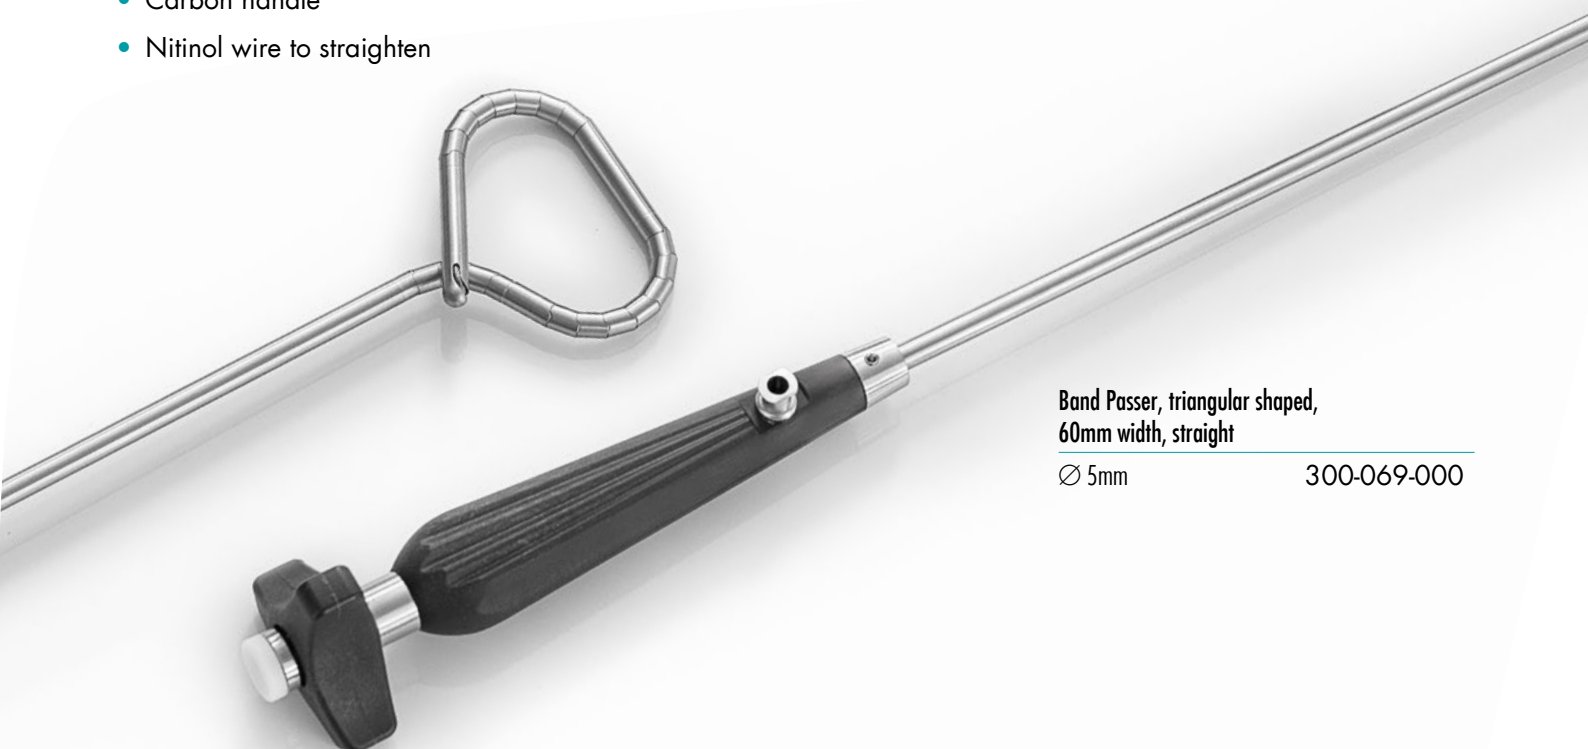

Fan Retractor, 5 Prongs, 330 mm working length

∅ 10mm

300-065-000

- Easy to use with 5.0 / 5.5 trocar sleeves
- Carbon handle
- Nitinol wire to straighten

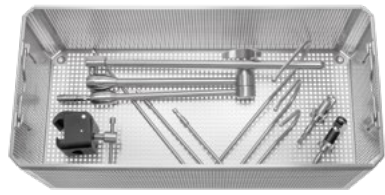

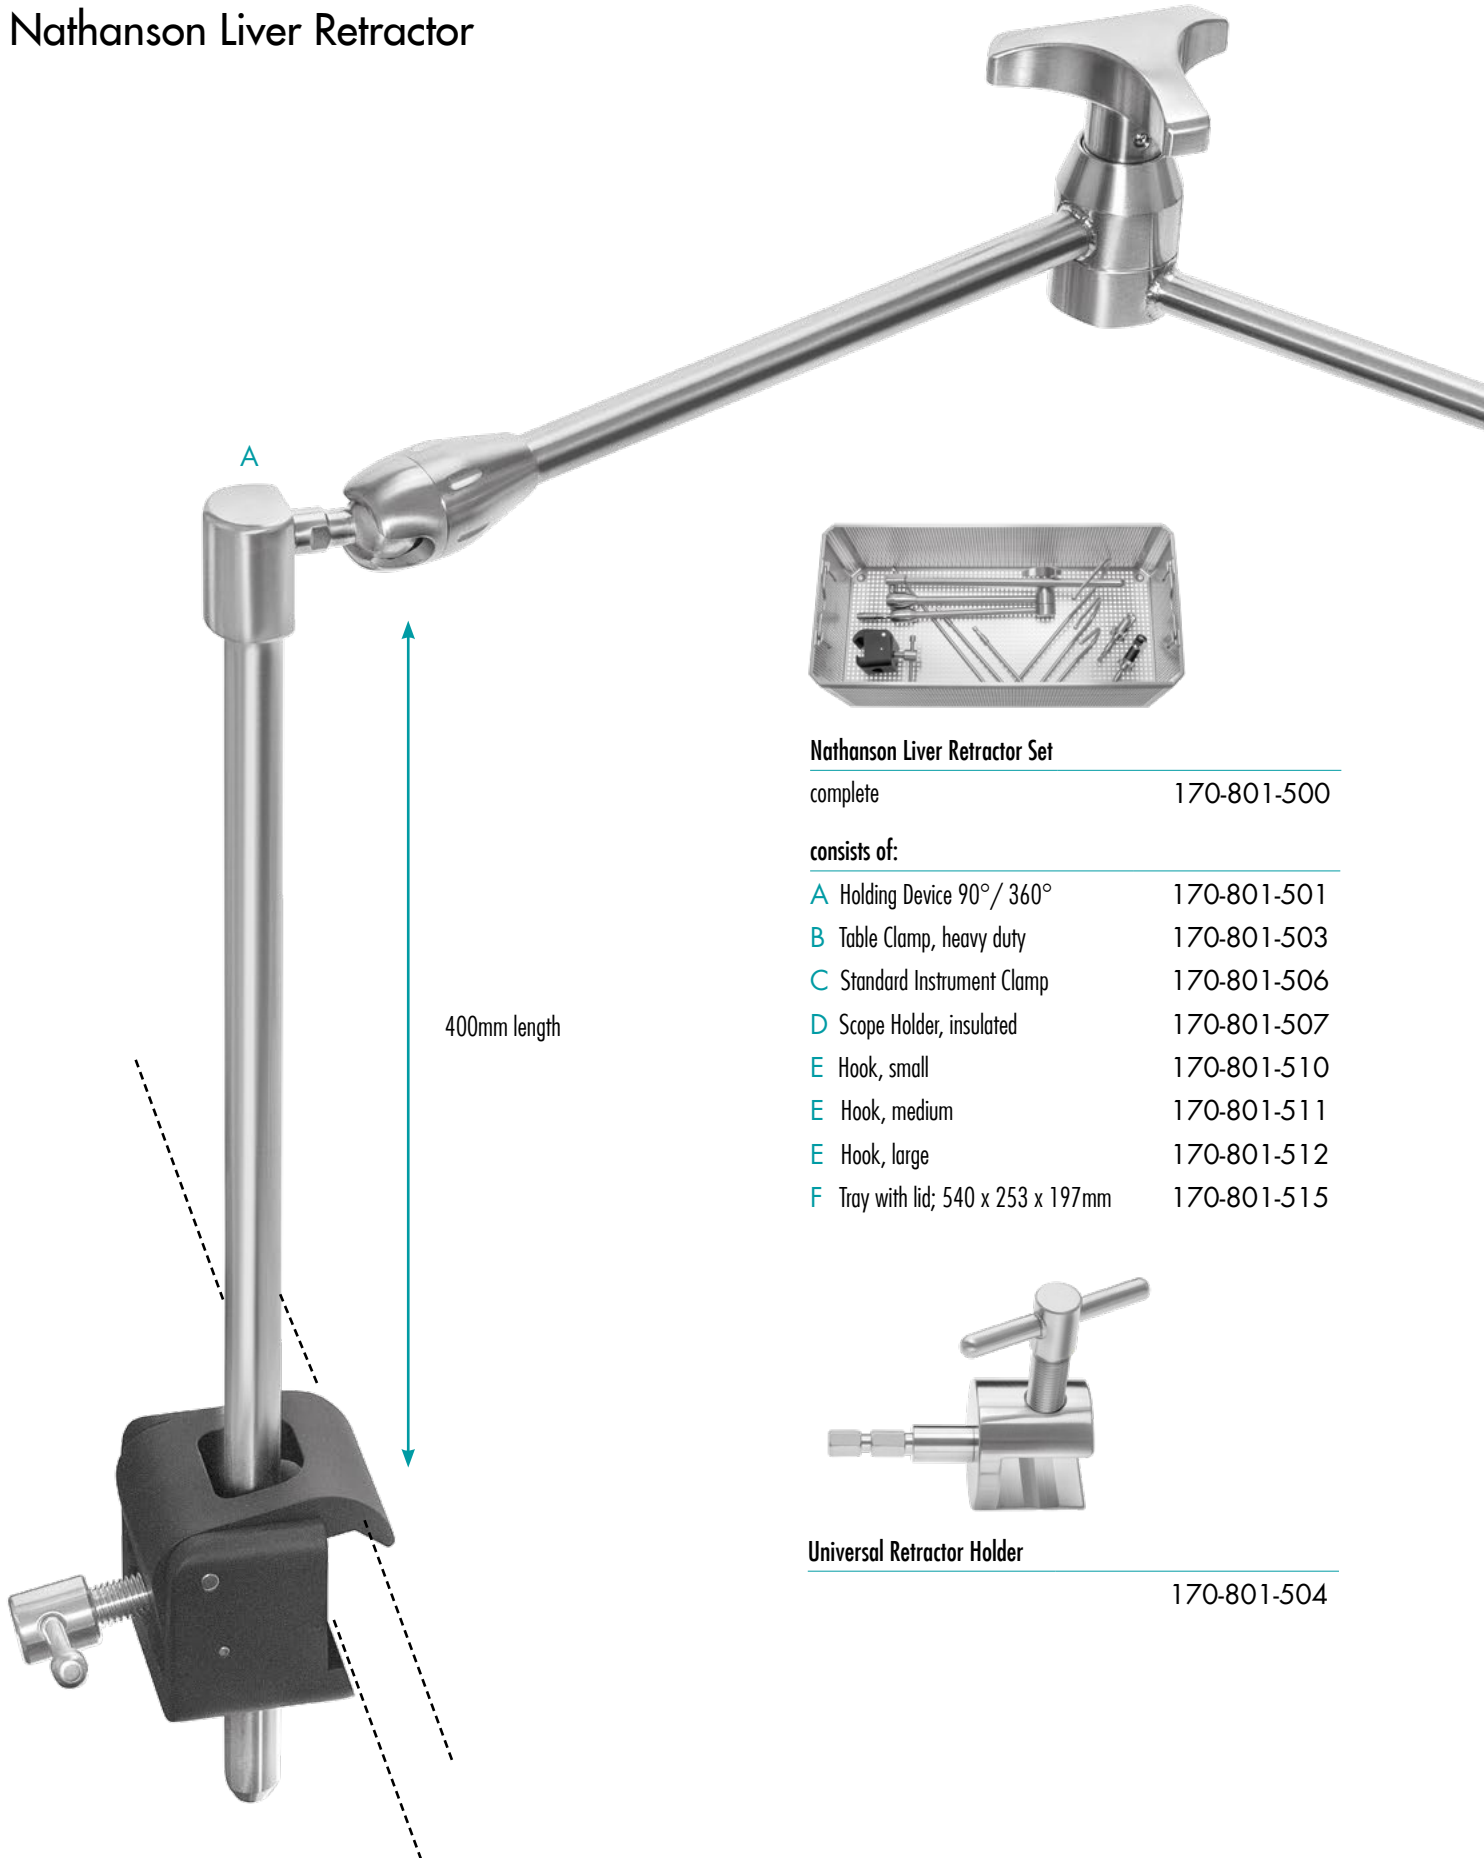

Band Passer, triangular shaped,
60mm width, straight

∅ 5mm

300-069-000

Nathanson Liver Retractor

Nathanson Liver Retractor Set

complete 170-801-500

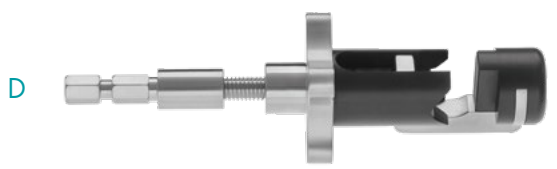

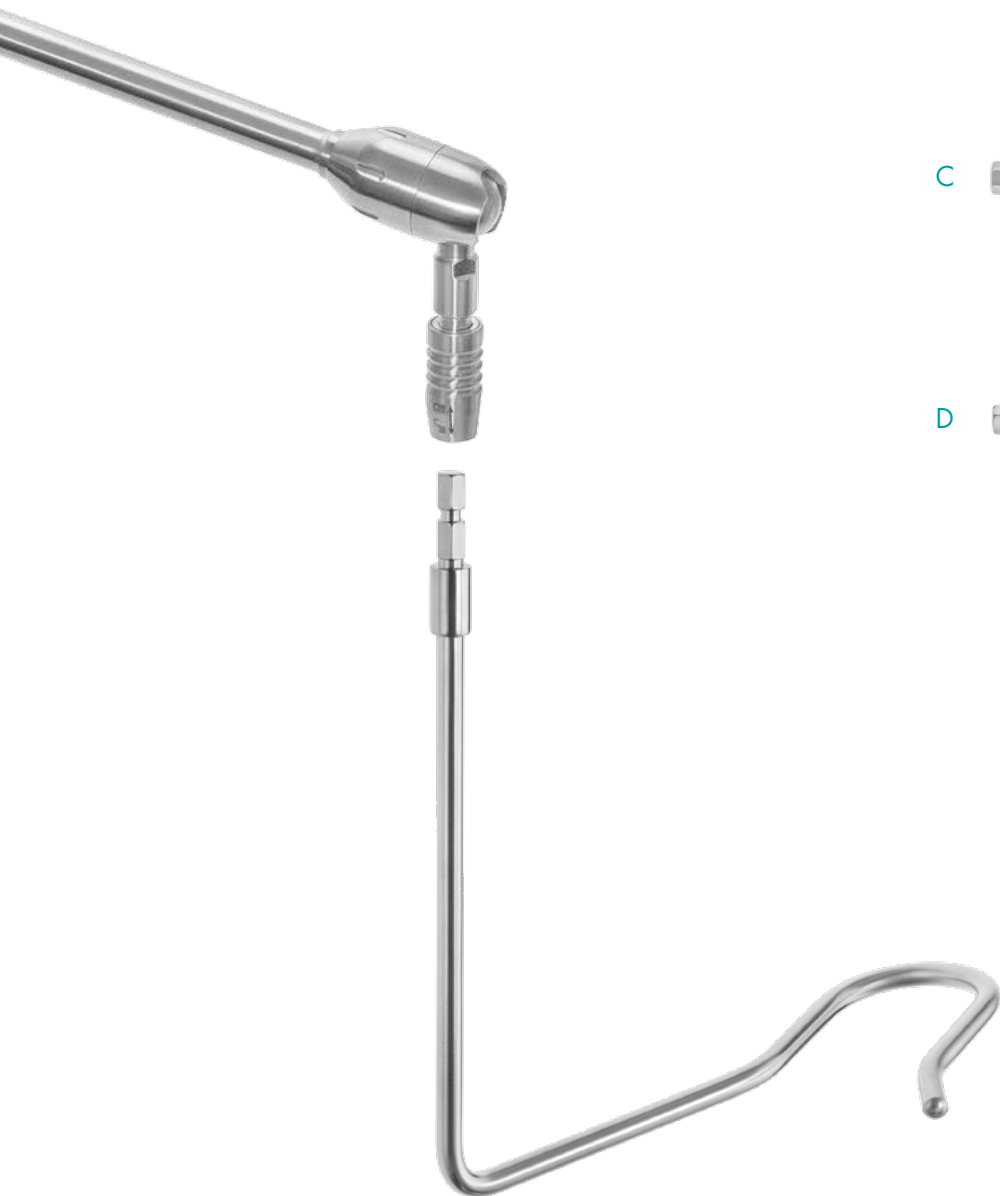

consists of:

A	Holding Device 90°/ 360°	170-801-501
B	Table Clamp, heavy duty	170-801-503
C	Standard Instrument Clamp	170-801-506
D	Scope Holder, insulated	170-801-507
E	Hook, small	170-801-510
E	Hook, medium	170-801-511
E	Hook, large	170-801-512
F	Tray with lid; 540 x 253 x 197mm	170-801-515

Universal Retractor Holder

170-801-504

devices.

Our complete system for high-definition endoscopic, laparoscopic and arthroscopic surgery.

We support the needs you have and provide you the options for your individual configuration.

Universal and flexible "All in One Solution" for diagnostics and endoscopic therapy. The complete system can be easily transported, intuitively set up and used. The ultra-high resolution monitor and FullHD camera produce a high-quality image and the 60W equivalent light source provides good illumination.

- 4K HD 17,3" monitor
- LED Light Source, 60W equivalent
- Disinfectable FullHD camera for flexible and rigid optics with zoom adapter
- Endoscopic platform with video and image recorder and network connection

300-490-001

ALL IN ONE FULL HD SYSTEM

consisting of:

- A Camera head, Full HD
- B TV-Adapter, f1.4 to f3.5
- C Light guide cable with adapter
- D Laptop with software, LED Light source
- E Suitcase

Mobile endoscopy becomes possible with this High Definition camera that allows endoscopic examination with all required parts in one complete set. Integrated illumination and a high-performance camera head, powered by an external Desktop-Computer or Laptop via USB 3.0 makes examination and clinical surgery possible.

- Full HD (1920 x 1080) recording function (images / video)
- Powered by USB connection (USB 3.0 required)
- Long-life LED illumination
- Programmable camera head with adjustable brightness
- Easy software installation and interface (Software incl. patient management/storage)
- Lightweight, ready-to use design

300-001-480
FULL HD CAMERA SET

consisting of:

- A Camera head
- B Endoscope coupler
- C Light source
- D Suitcase
- E Software

4K 3-Chip UHD Camera K 4000

300-001-840V

Features:

- 4K UHD resolution with 3-Chip technology
- Image algorithms enhancement of color and structure
- True natural colors for excellent live surgery imaging
- Recording function (video and picture)
- Camera head with 4 push buttons
- Boost function
- Zoom, freeze, fog reduction
- 10 USER modes configurations
- Multilingual menu
- SDI 4K Output

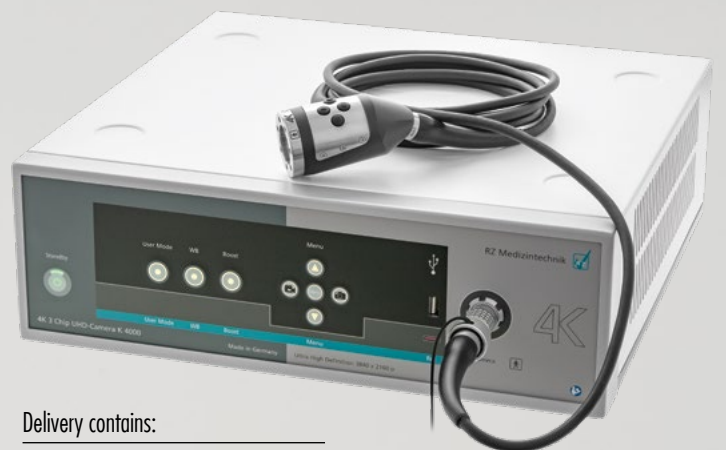

UHD 3-Chip Camera Head

(included)

300-001-841

4K

**Ultra High Definition Quality
3840 x 2160 PIXELS**

Delivery contains:

- Main Unit (300-001-840V)
- Camera head (300-001-841)
- HDMI cable
- USB Pen Drive
- Mains cable
- Operating manual

Recording function on
USB pen drive

Camera head with 4
raised push buttons

Features:

- Pure Natural Colors technology
- Multitude of digital video outputs for best possible picture transmission to medical grade monitors
- Ergonomic camera head with 3 programmable remote control buttons
- User-friendly multilingual menu allows a large variety of setups for individual procedures and surgeons preferences
- Full HD 60fps video recording
- Full HD image saving
- USB pen drive included
- Text generator (optional with keyboard)
- Documentation System

FULL HD
1-CHIP FULL HD
1920 x 1080
PIXELS

F2 Camera Head

(included)

300-001-602

Delivery contains:

- Main Unit
- Camera head
- HDMI-DVI cable
- HDMI cable
- S-Video cable
- RGB cable
- BNC cable
- USB Pen Drive
- Mains cable
- Operating manual

HD-Camera F2 Pro

300-001-601V

3-Chip Camera F4

300-001-804V

Features:

- Full HD-Camera with latest 3-MOS technology for brilliant picture quality
- Pure Natural Colors technology
- Multitude of digital video outputs for best possible picture transmission to medical grade monitors
- Ergonomic camera head with 3 programmable remote control buttons
- User-friendly multilingual menu allows a large variety of setups for individual procedures and surgeons preferences
- Full HD 60fps video recording
- Full HD image saving
- USB pen drive included
- Text generator (optional with keyboard)
- Documentation System

Delivery contains:

- Main Unit
- Camera head
- HDMI-DVI cable
- HDMI cable
- S-Video cable
- USB Pen Drive
- Mains cable
- Operating manual

3-MOS Camera Head
(included)

LUMEN LED 1 Light Source

300-900-180V

Automatic or manual light intensity control

Features:

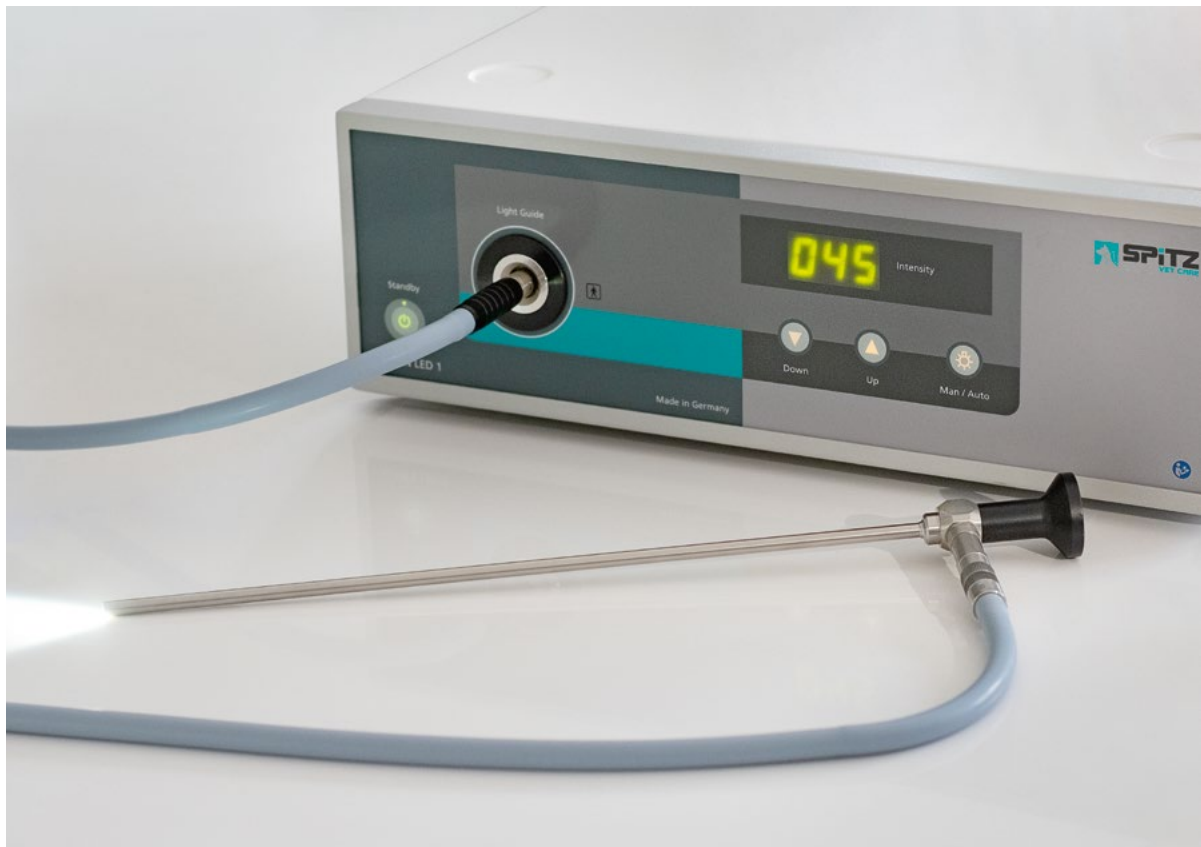

- Daylight quality
- 20.000h lamp lifetime
- Manual or automatic light control
- Waterproof touch control panel
- Low heat conduction by improved LED technology

Delivery contains:

- Main Unit
- BNC cable
- Mains cable
- Operating manual

LAP Suction and Irrigation Pump P1000 complete set

300-000-100V

Special filters ensure sterility

Digital display shows actual suction and irrigation pressures

Features:

- Independently digital pre-setting for maximum suction and irrigation pressures
- Digital display of actual suction and irrigation pressures
- High efficiency with rates up to 3 L/minute
- Color coded tubing sets
- Skid-proof pedestals
- Standby function
- Low noise level
- Optional footswitch for comfortable operation during surgery
- Hydrophobic disposable filters for maximum patient safety
- Stainless steel housing for maximum lifetime

Delivery contains:

- Main Unit
- Suction and Irrigation Tubing Set
- Aspiration Bottle, 2L
- 2 Retainers with screws
- Puncture tube, 235mm
- 2 Hydrophobic filters, sterile
- Mains Cable
- 2 Spare Fuses
- Operating Manual

Pump P1, 110 - 230V

For Arthroscopy	225-906-000V
Irrigation Tubing Set, silicone, autoclavable (included)	225-910-001
Irrigation Tubing Set, PVC, 20 pcs. daily tube, sterile (optional)	225-910-002
Patient Tube, PVC, 40 pcs., sterile (optional)	225-910-003

Features:

- Hydrostatic pressure regulation
- Silicone Tubing Set included (225-910-001)
- Easy to operate, splash-proofed display
- Highly reliable tube guide and handling
- Skid-proof pedestals

Delivery contains:

- Main Unit
- Tubing Set
- Mains cable
- 2 Spare Fuses
- Operating manual

Airflow A2 Insufflation Device

Features:

- User-friendly interface
- Highest safety standard for patients
- Pre-insufflation mode for use with Veress Cannulas
- High gasflow rates

Delivery contains:

- Main Unit
- Sterile Filter 300-902-007
- Wrench Set 300-902-006
- CO₂ High Pressure Tube 300-902-003
- Standard Silicone Tube 300-902-005
- Mains Cable
- Operating Manual

Lithotripter

Features:

- The smallest probe diameter is only 0.6mm, which ensures a larger lumen
- Auxiliary instruments can also be inserted
- Very simple handling, all parts are easy to disassemble for cleaning purposes
- Compatible to SPiTZ and other instruments for the therapy of ureteric, renal and bladder stones
- Non-conductive hand piece to ensure safety for patients as well as users against current conduct
